DevSecOps Specialist and Developer
Greater St. Louis

Summary

I'm a UI developer that specializes in modernizing enterprise user
experiences.

Experience

Softworld
Sr. Software Engineering Consultant
November 2020 - Present (5 months)

Currently engaged in enterprise UI design and migration, while installing
and managing analytics across assets for a Federal geospatial customer.
Leads GitLab CI/CD pipeline microservices to include secure code mitigation.
Early developer success includes releasing two apps within the first 45 days
of assignment. Skilled in refactoring and code archaeology. Utilizes Jira
to enhance transparent communication of objectives. Specialties include
Javascript, Bootstrap, PHP, DevSecOps and Python configuration. Serves as
onsite company Lead.

Compass Inc.
Sr. Software Developer
June 2020 - September 2020 (4 months)

Devised solutions to longstanding Javascript bugs. Engaged and trained the
ServiceNow Lead in Jira dashboard and kanban design.

Geodata IT, LLC
3 years 9 months

Sr. Software Engineer
December 2019 - June 2020 (7 months)

Assigned to a geospatial DoD customer for customized DevSecOps cloud
engineering using Jenkins (SonarQube, Threadfix, Nexus and OWASP savvy).
Designed a Jira dashboard to facilitate ease of use and enhance CX, which
included membership configurations.

Highly skilled at problem solving and finding new resources for exceptional delivery.

Operations and Developer
October 2016 - December 2019 (3 years 3 months)
St. Louis

Agile people operations specialist and developer that managed the business functions and personnel expansion of a Geographic Information Systems (GIS) company with a presence in four states. Additionally, served as the Esri (ArcGIS) lead. Assessed risks and opportunities for the organization, including spearheading ISO 9001:2015 certification. Used Django, Heroku, ArcGIS, Esri Leaflet and Javascript for R&D. Created Geodata IT University, an employee training program.

Rebranded company CX to attract new cleared talent in a competitive environment in 2019.
- Expanded employee operations to Virginia.
- Instrumental in creating a diversified workforce comprised of over 70% women and/or minorities.
- Facilitated a 300%+ increase in staff
- Created a full-stack careers/corporate, beta website with help desk integrations.

Other highlights:
- Spearheaded a submission that led to a significant company recognition award in 2017.
- Designed & implemented a QMS that obtained ISO 9001:2015 certification in 2018, as well as the internal auditing program.
- Expertise in public relations led to television & newspaper coverage during a pivotal growth year.
- Research & adaptations led to a successful facility clearance security manual review.
- Designed & taught training program to streamline BI research methods.
- Developed beta Javascript financial app to move company sales forward.

Certifications: Scrum Master, Scrum Trainer & Scrum Web Developer, as well as Six Sigma Champion Certified.

Tools: Python, Django, Heroku, Esri Leaflet, ArcGIS products to include API, Ruby, Jekyll, SQLite, HTML, JSON, Javascript (ReactJS, AngularJS, Leaflet

& jQuery), OpenStreetMap, Git, Git Bash, GitHub, Markdown, GIMP, Atom, Insightly CRM, Trello, Slack & WordPress

Cheryl Hughey Promotions LLC
Web Designer & Digital Strategist
July 2005 - January 2018 (12 years 7 months)
St. Louis County, Missouri

Web designer and social media specialist that excelled at brand building the customer experience and championing small business success through highly targeted research, networking and national audience development via online and traditional press outlets. Used Illustrator for print design.

Event promotion work has featured names like Kool & the Gang, Smokey Robinson, Kenny G and others. Provided tour support for Coolio and Delfeayo Marsalis. Facilitated the launch of Tom Holland's ("Child's Play" and "Fright Night") co-owned production company. Additionally, served as content writer for companies and print publications.

Laumeier Sculpture Park
Grant-funded research project
January 2016 - July 2016 (7 months)
Greater St. Louis Area

Demographic research & analysis of surveys, Census data & industry trends for a short-term, grant-funded project to promote arts and education in St. Louis. Project artifacts included: newly designed audience survey & STEAM course outlines.
